

SAVE OUR TRAIN SERVICES

**REPLY BY
8 DECEMBER**

South Western Railway—the new franchise holders for the South West Trains, including the Waterloo to Basingstoke line—are currently consulting on their proposed new timetable to come into action in December 2018.

Their original proposals would have been terrible for our local stations—directly or indirectly—but, following our petition, SWR have listened and are consulting now on new proposals that protect the current level of service.

If you want this to happen, you need to ACT NOW.

We still need to show SWR that we want our services protected, otherwise the cuts may still happen.

To do this, I need you to work with me. We will only secure the changes we want if you and others are behind my clear response.

Please complete the consultation response on the back and post or email it back to me today!

We support our MP's submission, including the key points below:

- 1** We support the revised proposals—which protect the level of service from Hook, Winchfield and Fleet—rather than the original ones.
- 2** We support more calls at Clapham Junction, along with more services at Fleet and Farnborough.
- 3** We would support these additional services in (2) above, so long as none of our local stations lose out.

Further details are in our MP's letter to SWR and on his website.

Data Protection Act 1998. How the information you have provided will be used: Some data received from you will probably comprise personal data about you and your issue/question, this may include sensitive personal data. The types of information collected about you will probably include your name, address and contact information. The contact data you provide will be retained by Ranil Jayawardena ("the data holder") in accordance with the provisions of the Data Protection Act 1998 and related legislation. It will also be retained and used in line with the Data Collection and Use Policy referred to below. Sensitive personal data remains confidential and will not be used or released by the data holder except in order to deal with your issue/question when contacting other agencies, the House of Commons and responding to South Western Railway's consultation. The data holder will use the data collected for the following purposes: (i) to respond to you and assist you with your issue or question and (ii) to keep you updated on this issue and the wider subject matter in the future which may contain information you may find of interest.
